

# Fantasy Stock Market User's Guide

## The Basics

- Each game is played on a “30-day” cycle beginning with the first business day of the month and ending on the last business day of the month.
- Each player has \$50,000 of fantasy money to invest.
- At the end the cycle, all player's accounts are reset to \$50,000.
- Trades are completed during normal market trading hours only. Trades placed after normal hours are held in “pending” and processed when the market opens.
- Players must be 13 years or older to access the game.
- The game uses real-time stock quotes from the primary markets of the NYSE, NASDAQ and American Stock Exchange.
- Over 4,300 stocks are available for trading. Stocks that typically trade at low volumes or in less frequency are not tracked for the game.
- Don't forget to use the Stock Market lesson plan found in the Educators site section of the TDBankWOW!Zone to teach the game in the classroom!
- Remind students... this is just a game... keep the learning fun!

## Getting Started

In order to play the TDBankWOW!Zone Fantasy Stock Market game, players must:

- Complete a one-time registration process as a Teen, Parent, OR Educator at the TDBankWOW!Zone
- Logon to the Teens, Parents, OR Educators homepage at the TDBankWOW!Zone
